

## EDUCATION IS THE KEY TO UNLOCK THE GOLDEN DOOR OF FREEDOM.

Dear Parents

*"The foundation of every successful nation  
Is the education of its youth."*

*I extend a warm welcome to all you to the School Of India family for the new session 2016 - 17. All great ideas begin with a commitment to the future. It is with a strong commitment to the quest for excellence in the field of education that School Of India was established to positively influence the lives of young children and transform them into proud and worthy citizens of India. They will make their mark on the global platform as true Indians. Our students will be taught to take responsibility for their learning and their behaviour in order that they assume responsibility of the society at large as adults.*

*In order to facilitate experiential learning, we have incorporated a programme called Eureka Think Labs in our curriculum, which provides hands on experience in Science and Technology education in schools. We wish to harness the creative potential and curiosity of young students with the exploratory capacities of science. The activities and experiments are designed around daily life objects and observations. Indigenously developed content ensures that students embrace science concepts with ease while enjoying the same.*

*Life skills are an equally important component of a child's education. We have introduced 'School Cinema' in our curriculum which is a child centric interactive multimedia programme to inculcate valuable life skills and morals in our students. There are innumerable activities, curricular and co curricular that have been planned for the students during the new session. On behalf of the management, I assure you that we will cater to the holistic development of our students many folds more than your expectations!*

*While our outstanding teachers, small number of students in each class and innovative programmes are important contributors to the successful fulfillment of School Of India's educational mission, a vital ingredient is our partnership with families who share our core values and educational philosophy. We are delighted that your family will be joining the School Of India community. In order that our best laid plans are executed in the best possible manner, it is imperative that we keep the lines of communication open at all times.*

*The School Management software Entrar is the mode of communication from the school. All circulars, notices, homework, exam portions and time table will be uploaded on Entrar. Entrar has been upgraded and can be used as an app in your mobile phones. Please download the app in your smart phone and check for updates regularly.*

*We are proud to announce the addition of a state of the art cafeteria and an eight lane swimming pool in our campus! Our infrastructure is one of the best in the city which facilitates overall development of the students in specially designed spaces in and out of the classrooms.*

*Let us make the academic session 2016-17 an eventful year for our children by upholding the motto of our school 'Nationalism before Internationalism'!*

*Looking forward to your support in all our endeavours.*

*With warm regards  
Shyamashree Chatterjee  
Headmistress  
School Of India*
